TECHNICAL SKILLS

Front End: JavaScript | React | React Hooks | HTML | CSS | Bootstrap | Jinja2

Back End: Python | Node.js | Express | MySQL | Mongoose | MongoDB | Axios | Flask | SQL Relationships

Other: Postman | CORS | React-Bootstrap | Adobe Photoshop | Adobe Illustrator | Balsamiq

TECHNICAL PROJECTS

Thriftlemore | *Back End* | [Github](#)
Online Thrifting Store

- Crafted robust Flask Models employing Object-Oriented Programming principles for Users, Items, and Review SQL tables, effectively defining their respective relationships.
- Collaborated in the development and debugging of Flask Controllers, ensuring efficient routing through project pages.
- Architected many-to-many relationships in SQL, empowering Users to interactively leave Reviews on Items.

Poker Earnings | *Full Stack* | [Github](#)
Poker Earnings Tracker

- Engineered a user-earnings tracking application leveraging React and Node.js, specifically designed for post-poker game analytics.
- Enhanced application aesthetics and usability through the proficient use of react-bootstrap, significantly improving user experience.
- Harnessed MongoDB collections through Mongoose Schemas to enable users to utilize an array of objectIDs referencing the Poker collection, showcasing a thorough understanding of database referencing.

PROFESSIONAL EXPERIENCE

Graphic Designer / Marketing | *Rekall Technologies* | Hazlet, New Jersey | 2018-2019

- Revamped the company's visual identity, including the logo and overall design aesthetic, thereby establishing a modern framework that continues to underpin all subsequent design initiatives.
- Self-taught WordPress to overhaul the company website, subsequently managing its maintenance and the creation of additional components like landing pages. This initiative significantly modernized the site's aesthetics and improved user experience.
- Designed compelling marketing emails and played a pivotal role in client acquisition, leveraging manual web scraping techniques to identify potential new clients.

Manager / Team Member | *Toss'd / Ce La Vi / Mr Pizza Slice* | Red Bank, New Jersey | 2019

- Led a high-performing team of six in a bustling salad bar environment, consistently delivering top-quality salads recognized in the area.
- Self-educated in Wix to create engaging, user-friendly websites, thereby elevating the online ordering experience and overall site usability.
- Engaged effectively with vendors to manage store inventory, ensuring seamless food preparation throughout the week.

EDUCATION

Coding Dojo | *Full-Stack Developer Certificate* | Online | 2023
- *Immersive Full-Stack Training Program in Python, Java, and MERN*

2023
